Re: **NOTICE OF EX PARTE MEETING**
CC Docket No. 94-102
RM-8143
Compatibility with Enhanced 911 Emergency Calling Systems

Dear Mr. Caton:

On March 25, 2002, George Marble, Vice President, Marketing, Grayson Wireless Division ("Grayson") of Allen Telecom, Inc. ("Allen") and I had an *ex parte* meeting with representatives of the Wireless Telecommunications Bureau ("Bureau") regarding the above-referenced docket. Representing the Bureau were Blaise A. Scinto, Jared M. Carlson, Daniel F. Grosh, Patrick Forster, Steven Rangel, Jennifer Salhus and Jennifer B. Tomchin.

We provided an update on the testing of the Grayson Wireless Geometrix® network-based wireless 911 location system operating with the GSM air interface. We reported that testing was performed by RCC, a testing company, under the supervision of the National Emergency Number Association ("NENA") during the week of February 4, 2002. The testing guidelines contained in OET Bulletin No. 71, published April 2000, were followed. NENA determined that the Geometrix® system using the GSM air interface met the FCC's accuracy requirements for a network-based location system as specified in section 20.18(h)(1) of the Commission's rules. A copy of the opinion letter written by NENA that was handed out at the meeting is enclosed.

We also updated the Commission on positive progress on current efforts with Verizon Wireless and ATT Wireless Services, as well as new contracts with small and medium wireless carriers.

Very truly yours,

/s/

Eliot J. Greenwald
